Details:

Hi There! If you are finding it difficult to comprehend Chemistry and all that it entails, look no further. I am industrial chemist with years of tutoring experience, tutoring all year levels up to university standard - I worked as both a university laboratory demonstrator and also in private tuition. I hold an Honours Degree in Science (Chemistry) from Monash University and am currently also pursuing a Ph.D. in Environmental/Organometallic Chemistry also at Monash.

I structure tutoring sessions around your direct needs, providing worked examples and notes to explain everything clearly so come exam time, a review of your semester/term work is easy! I am available on weekends at any time and if required, during the week after 6pm onwards. My fee structure is the same for groups as it is for one-on-one, so feel free to bring your friends!

So, feel free to call me at any time on 0411 261 905 to discuss your needs and how I can be of assistance to your studies.
